# There when you need us... and before

When the unexpected happens time is critical. At SunGlo, we understand this. That's why we developed our Disaster Shield Pre-Emergency Plan. Disaster Shield has been developed based on three decades of experience as specialists in facility emergency response and repair. Having critical information and procedures in place will aid in responding to an emergency quickly and efficiently. Our goal is to align and combine our efforts with yours to improve communication, response time and ultimately reduce the cost of damage and downtime.

Offices

Hospitals

## Disaster Shield Features

- A customized program developed to reduce liability and loss through documented procedures. We will assist in identifying your specific needs and concerns and create a plan that meets them.
- A disaster information outline that collects critical data. It will be compiled to be accessible at your finger tips and at ours in case of an emergency.
- Priority 24/7/354 disaster emergency response service
- Tips on how to deal with the small emergencies you want to handle and to act as a guideline to help you decide when you should call us.
- An annual review to evaluate and update your Disaster Shield Pre-Emergency Plan.
- The use of our training facility (The SMART Center) for training your employees and for continuing education (CE) credits.

## Disaster Shield Benefits

The features of our Disaster Shield Pre-Emergency Plan offer many benefits. It helps you plan for disasters in advance to avoid potentially devastating disruption to your business.
